A set of small, semi-transparent navigation icons located in the bottom right corner of the slide.

 sandbox.mapbender3.org/application/mapbender_user

Mapbender3

Scale 1 : 100K

This map displays the Rhine River flowing through the German state of North Rhine-Westphalia. Key features include:

- Rivers:** The Rhine River (blue line).
- Highways:** A4 (red), A3 (red), A555 (red), B56 (red).
- Towns and Locations:** Brühl, Wesseling, Stadtwerke Wesseling, Niederkassel, Troisdorf, Sankt Augustin, Lohmar, Rösrath, Hennet.
- Landmarks:** WGS84 Geodetic Control Points (blue squares).

The map interface includes various tools at the top: Layertree, Feature Info, Print, Legend, WMS Loader, GPS, Line Ruler, Area Ruler, and About. On the right side, there is a zoom control panel with a compass rose and a scale bar.

v. 3.0.5.0

The screenshot shows the Mapbender3 application manager interface. On the left, a sidebar contains a navigation tree with categories like Applications, Sources, User control, and Groups. The main area is titled 'demo' and displays a configuration interface for the 'demo' application. It includes tabs for Base data, Layouts (which is selected), Layersets, CSS, and Security. Below the tabs, there are sections for Toolbar, Sidepane, Content, and Footer, each with a title input field and a type dropdown. A '+' button is available for adding new elements. A tooltip 'Add a new element' points to the '+' button in the Content section. A monitor icon in the top right corner indicates the current template is 'Fullscreen'. The bottom status bar shows the URL 'demo.mapbender3.org/manager/application/demo/element/select?reg'.

The screenshot shows a web-based mapping application for the Frankfurt Baumkataster. The map displays a grid system with numbered blocks (e.g., 1, 2, 3, VII, VIII) and various green circular icons representing trees. A search dialog is open, showing a dropdown menu for 'Straßensuche' (street search) and a field for 'Strname*' containing 'Hauptwache'. Below this, a table lists street names and house numbers. The application includes a sidebar with a tree icon and a list of layers: Baumkataster, Luftbilder 25.4.13, Stadtarten (farbig), 1:10.000, 1:20.000, 1:50.000, 1:100.000, Stadtarten (grau), 1:10.000, 1:20.000, 1:50.000, 1:100.000, Stadtgrundkarte, and SGK grau. A status bar at the bottom indicates a scale of 1:750 and coordinates x = - y = -. The right side of the screen features a legend and a small inset map showing the location of the search results within the city of Frankfurt.

Geoportal Mapbender3 - Geoportal demo.mapbender3.org/app.php/application/Geoportal

The screenshot shows the Mapbender3 application running in a web browser. The top navigation bar includes links for 'Geoportal' and 'Mapbender3 - Geoportal'. The main content area features a map of the 'Botanischer Garten Bonn' area, with buildings and streets labeled. To the left is a sidebar with a 'Layer tree' and 'Legend' section, and a 'Mapbender User' section containing icons for Company, Administration, University, and User. Below these are links for 'OpenStreetMap (OSM)', 'WhereGroup', 'Help', and 'Impress'. A central panel titled 'Demo' contains tabs for 'Base data', 'Layouts', 'Layersets', 'CSS', and 'Security'. The 'CSS' tab is active, displaying the following code:

```
1 .toolBar {  
2     background-color: rgba(0, 29, 122, 0.8) !important;  
3 }  
4  
5 .toolPane {  
6     background-color: rgba(0, 29, 122, 0.8) !important;  
7 }  
8  
9 .pan{  
10    background-color: rgba(0, 93, 83, 0.9);  
11 }  
12  
13 .sidePane {  
14     overflow: visible;  
15     background-image: url("");
```

At the bottom right are 'Save' and 'Cancel' buttons.
